EXAMINER'S COMMENTS

Response to Amendment

1. The declarations filed on 26 Feb. 2004 and 07 Aug. 2003 under 37 CFR 1.131 are sufficient to overcome the Prausnitz et al. (US 6,503,231) reference.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

While the prior art of record suggests the use of silicon or porous silicon for the manufacture of microneedles or micropiercer devices and/or for the transfer of a substance into a cell, the prior art of record fails to teach or fairly suggest the use of a resorbable silicon material for the manufacture of a microneedle or micropiercer device and/or for the transfer of a substance into a cell. Note the reference of Canham (WO 97/06101) evidences that porous silicon is not inherently resorbable. As shown in examples 1 and 2, the resorbable properties are affected by crystal structure and porosity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Beisner whose telephone number is 571-272-1269. The examiner can normally be reached on Tues. to Fri. and alt. Mon. from 6:15am to 3:45pm.
